

# TOGAF® 9 Certified

## Level 2: Certification in TOGAF

This is an accredited, interactive e-learning course for students who wish to become TOGAF Certified. As well as in-depth visual learning content, the online course contains audio and video narratives, quizzes and practice exams.

**Delivery:** e-Learning

**Certificate:** Examination (included)

**Accredited By:** The Open Group

**Mock Exam:** Included in Course

**Duration:** 15 hours, self-paced

**Language:** English

### Course Overview

This interactive course is the second part of TOGAF Certification, following on from TOGAF Foundation.

As well as in-depth visual learning content, the online course contains audio and video narratives, quizzes and practice exams. The purpose of certification for TOGAF 9 Level 2, known as TOGAF 9 Certified, is to provide validation that in addition to the knowledge and comprehension of TOGAF 9 Foundation, the candidate is able to analyze and apply this knowledge.

The course syllabus builds on the core concepts of the TOGAF Framework learnt at Foundation level and shows you how to apply it as a TOGAF architect.

### Who Should Take This Course?

This course is ideal for architects with a good knowledge of TOGAF who are now looking to become certified.

### Examination

The exam is an open book, scenario-based, multiple choice exam, consisting of eight questions. Each scenario has four possible answers, each scoring a different number of points. The pass mark is 60% (24 points out of 40) and there is a time limit of 90 minutes to complete the exam.

Included with the course is a free voucher for the exam, which can be taken at authorized Prometric test centers around the world.

### Accreditation

Our TOGAF courses have been approved and accredited by The Open Group, developers of the TOGAF methodology.
